Rajnandani Mahajan

Aspiring Software Developer | Computer Science Engineering Student

rajnandanimahajan66711@gmail.com | Indore, Madhya Pradesh, India
github.com/Rajnandani1101 | linkedin.com/in/rajnandani-mahajan-a02aaa332

Profile

Computer Science Engineering student at Indore Institute of Science and Technology, passionate about software development, emerging technologies, and problem-solving. Building a foundation in Java, Python, and core computer science concepts, and seeking internship opportunities to turn ideas into practical digital solutions.

Education

Bachelor of Technology (B.Tech), Computer Science Engineering
Indore Institute of Science and Technology
2024 – 2028 | Expected graduation: 2028

Skills

Programming languages: Java, Python
Core computer science: Object-Oriented Programming, Data Structures and Algorithms, Problem-Solving
Professional skills: Critical Thinking, Team Collaboration, Communication, Adaptability
Tools: Git, GitHub, VS Code

Projects

Digital Queue Management System
A technology-driven project designed to streamline queue management, improve workflow efficiency, and reduce waiting-time challenges. Key focus: practical problem-solving, system design, and user convenience.

Certifications

Java Programming, NPTEL
Elite Certificate

Python Programming, NPTEL
NPTEL Certificate

Achievements

- Earned an NPTEL Elite Certificate in Java.
- Completed an NPTEL certification in Python.
- Developed academic project experience through practical problem-solving.
